Research Alert: Global Public Health Security

05/08/2022

Produced by UKHSA Knowledge and Library Services on behalf of the Global Public Health team, this is a monthly bulletin highlighting articles about global public health. The purpose of this alert is to provide you with the latest, best evidence to help you make informed decisions.

If you have any queries, please contact us at libraries@ukhsa.gov.uk, and if you would like to request a literature search, please use the Knowledge and Library Services Enquiries Portal.

Please note that not all the articles and resources referred to in this alert are freely available. Some articles may require an Athens username and password. For further information on Athens accounts please visit here. If you are not eligible to access our library services, then you may want to approach your local health library service.

We do not accept responsibility for the availability or reliability of the items of content included in this alert and their inclusion is not an endorsement of any views that may be expressed.
